

To whom it may concern.

The purpose of this letter is to thank Mr. Jacopo Tartaglia for his excellent job in helping me to purchase an apartment in Montecatini.

We start our communication, when I was still in Haifa, Israel trying to find an appropriate property through the Internet.

After getting a well-written proposal from Jacopo in regard of his consulting service, we extensively communicate and found a dozen of apartments worth to consider.

Therefore, when I end up in Montecatini Jacopo practically immediately arranged visits to the apartments, so in two weeks I have known the apartment I want to take.

Jacopo negotiated with the sellers and drafted a proposal in a very timely manner always caring about both sides.

At this point, after talking to Jacopo, my consultant from Israel sent to me a letter saying he feels that there is no need for his participation.

From this point on Jacopo took over the project and brought it to the happy end on September 9, when we got the deed.

He managed to do everything needed to complete the project knowing that August is the worse month in Italy for such type activity.

In short, Jacopo, in spite of his young age, is a high- level professional, who demonstrate during the entire project good manners and absolute honesty.

I would recommend his service without any reservation to anybody who wants to sell, buy or rent a house or apartment.

Professor Roman Polyak.
